DESCRIPTION OF YOUR OFFERING: Portico Benefit Services is a ministry of the ELCA. We partner with rostered leaders and with congregations to strengthen leaders for ministry. It's a joint effort:

- ELCA organizations are called upon to provide for their leaders, and give them time to tend to their well-being.
- Leaders are expected to take care of themselves so they are better able to shape healthy congregations in changing, often challenging, times.
- Portico is responsible for delivering cost-effective benefits and resources that help leaders strengthen their financial, emotional, and physical well-being.

I am glad to present on any of Portico's benefits as well as any topic that can help leaders strengthen their financial, emotional, and physical well-being – especially around the Wholeness Wheel.
